Supplemental EXAMINER'S AMENDMENT

Oath/Declaration

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not identify the mailing address of each inventor. A mailing address is an address at which an inventor customarily receives his or her mail and may be either a home or business address. The mailing address should include the ZIP Code designation. The mailing address may be provided in an application data sheet or a supplemental oath or declaration. See 37 CFR 1.63(c) and 37 CFR 1.76.

The address of the second inventor is not stated on oath.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Inserted the following language as the first paragraph of the brief description of the drawings:

- - The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee. - -

3. Claims 1-4 and 8-13 are allowed.
4. The following is an examiner's statement of reasons for allowance: the prior art of record fails to specifically teach a nonwoven fabric of the present invention with a cross machine

elongation value of at least 100%. While the Dorscher et al. reference (US 3,692,618) is directed to the formation of nonwoven webs from melt-spun continuous filaments of synthetic polymers that are further stabilized by means such as needling, that would produce a similar entangled structure, the reference also teaches that the webs have low elongation teaching away from forming a fabric that exhibits high elongation as claimed herein. (Refer to Col. 10, lines 62-65 and elongation values for Examples 5-8 of the reference).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Norca L. Torres-Velazquez whose telephone number is 571-272-1484. The examiner can normally be reached on Monday-Thursday 8:00-4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris can be reached on 571-272-1478. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
